

# Ghana Water Brigade

## Develop Water Solutions Abroad

*Improving access to clean water one community at a time*

I \_\_\_\_\_ am travelling to Ghana in \_\_\_\_\_ on a water brigade. While there we will assist in designing and implementing water systems to prevent communicable illnesses in communities. The community we will be working in is based in the Central Region of Ghana. 80% of the Ghanaian population have been infected with parasites this year. In just 10 days, we can take a project from start to finish, and provide clean, sufficient drinking water to more than 500 people year round. I ask you to kindly donate what you can to a very worthwhile cause. If you would like to give your e-mail address I will gladly send you a detailed report of our project and the difference your contribution made to the lives of those less fortunate. Thank You.
